

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

- 1-6. (Canceled)
7. (Previously Presented) A direct alcohol fuel cell comprising an anode having an anode catalyst layer, a cathode having a cathode catalyst layer, and a solid polymer electrolyte membrane arranged between the anode and cathode, the direct alcohol fuel cell generating electricity by supplying the anode with alcohol and water;
wherein the solid polymer electrolyte membrane is an anion exchange membrane,
wherein the cathode catalyst layer contains silver as a catalyst, and
wherein the cathode catalyst layer contains an anion exchange resin as a binder.
8. (Original) A direct alcohol fuel cell according to claim 7, wherein the catalyst includes a carrier catalyst having a carbon material carrying the silver.
- 9-14. (Canceled)
15. (Previously Presented) A direct alcohol fuel cell according to claim 7, wherein the anion exchange membrane is constituted by a polymer compound having a cation group within a molecule.
16. (Canceled)
17. (Previously Presented) A direct alcohol fuel cell according to claim 7, wherein the alcohol is at least one species selected from the group consisting of methanol, ethanol, ethylene glycol, glycerin, and erythritol.
